

KALE REALTY

RATES AREN'T THE PROBLEM. PRICE IS.

The #1 reason agents say buyers stall this year, straight from NAR's newest member survey.

“

**27% OF AGENTS
SAY
AFFORDABILITY IS
THE #1 THING
STOPPING A SALE.**

Not inventory. Not the wrong house. NAR's 2026
Member Profile, reported June 2026.

27% PICKED AFFORDABILITY. INVENTORY GOT 12%.

NAR asked brokerage specialists what limits their clients from completing a purchase.

Affordability won by more than two to one over the next closest reason, lack of inventory, and nearly three to one over "can't find the right property." Buyers aren't shopping longer. They're running math that doesn't close yet.

WHAT THAT CHANGES ABOUT THIS MONTH'S CONVERSATION:

- 1** Run the full monthly number before the tour.
Taxes and insurance included, not just
- 2** principal and interest.
- 3** Put a seller-paid rate buydown on every offer you write.
It moves the payment more than a
- 4** price cut moves the payment.
- 5** Build a 3-to-5 home list priced for today's payment.
Show it before a buyer says they're
- 6** "just going to wait."

THE TAKEAWAY

**THE BUYER
WASN'T WAITING
ON THE FED. THEY
WERE WAITING ON
MATH THAT
WORKS.**

Have that conversation this week, before they stop looking altogether.
