KALE REALTY

53% OF REALTORS ARE AT AN INDEPENDENT FIRM.

NAR's own member data says the "independent" choice is already the majority.

“

MORE THAN HALF OF REALTORS ALREADY WORK OUTSIDE THE BIG FRANCHISE NAMES.

NAR's 2026 Member Profile: 53% of members are at independently owned brokerages.

INDEPENDENT ISN'T THE EXCEPTION ANYMORE. IT'S THE MAJORITY.

NAR's 2026 Member Profile puts 53 percent of its own membership at independently owned brokerages, not one of the national franchise names most agents assume everyone else picked. The franchise brand was supposed to be the safe, default choice. The data says most agents already decided it isn't the only one that works.

WHAT TO ACTUALLY COMPARE BEFORE YOU RENEW:

1 **Write down what the franchise name has actually done for your pipeline this year.**
Not what it could do. What it did, in leads or referrals you can point to.

2 **Price out what you'd keep under a flat fee versus your current split, on your real production number.**
Not a hypothetical top producer's number.

3 **Ask an agent at an independent brokerage what changed when they left.**
More than half of Realtors already have an answer to that question.

THE TAKEAWAY

MOST AGENTS ALREADY MADE THE INDEPENDENT CALL.

Find out what you'd actually keep under a flat fee.
