HOMEOWNERS SIXTY-TWO AND OLDER NOW HOLD A RECORD $15.34 TRILLION IN HOME EQUITY.

The highest figure ever recorded, and most of it sits untouched.

THE MYTH ISN'T THE NUMBER. IT'S WHO AGENTS THINK WANTS TO TALK ABOUT IT.

The National Reverse Mortgage Lenders Association and RiskSpan's Reverse Mortgage Market Index put senior home equity at $15.34 trillion in the second quarter of 2026, a record high, driven by a roughly $430 billion rise in home values that outpaced a smaller rise in mortgage debt. Most agents treat older homeowners as a quiet segment, not a lead source. That equity is exactly what funds a downsizing move, a move closer to family, or a cash purchase on the next place.

START THE DOWNSIZING CONVERSATION THIS MONTH:

1 **Pull your sphere list for homeowners over sixty.**
That is where this equity actually sits.

2 **Lead with the number, not the pitch.**
"Did you know home equity for homeowners your age just hit a record high?"

3 **Ask the real question.**
"If you ever wanted to right-size or move closer to family, is now a good time to talk about what your equity could do?"

4 **Put one of these calls on your calendar this week.**
Not a mailer. A call.

THE TAKEAWAY

THE BIGGEST POOL OF HOME EQUITY IN THE COUNTRY IS SITTING WITH PEOPLE NOBODY'S CALLING.

Call one this week.
