

KALE REALTY

SENIORS ARE SITTING ON \$14.66 TRILLION.

A record high in home equity. Almost none of your senior clients have been asked about it.

“

**EVERY DOLLAR OF
THAT WEALTH IS
STILL SITTING IN A
HOUSE NOBODY
HAS LISTED YET.**

The mortgage system barely knows how to underwrite it. You do not need to wait for the system to catch up.

\$14.66 TRILLION.

That is how much home equity homeowners age 62 and older now hold, an all time high.

National Reverse Mortgage Lenders Association, RiskSpan Reverse Mortgage Market Index, Q3 2025 data, reported January 23, 2026.

FOUR WAYS TO OPEN THE SENIOR EQUITY CONVERSATION THIS MONTH:

- 1 Ask about equity, not the mortgage rate.**

Most calls to a homeowner in this age group start with rate talk. Start with the record equity figure instead and ask what they would do with access to it.
- 2 Put a downsizing check-in on your calendar for every client over 62.**

A homeowner sitting on paid off equity is your next listing before they have decided to sell.
- 3 Know one lender who actually underwrites senior wealth well.**

Asset depletion underwriting exists in agency guidelines already. Have a name ready before a client asks.
- 4 Refer, do not advise, on the reverse mortgage question.**

It is a licensed lending decision, not a real estate one. Your job is the referral and the listing that follows it.

THE TAKEAWAY

**PICK THREE
CLIENTS OVER 62
THIS WEEK. ASK
ABOUT THE EQUITY
, NOT THE RATE.**

\$14.66 trillion is sitting in houses that have not sold yet. Be the agent who asks first.
