

KEEPING IT REAL

# AI ISN'T TAKING YOUR JOB. **BAD** MARKETING IS.

---

A top 0.001% Chicago producer on the AI question  
agents keep asking wrong.

“

**"WHEN  
INFORMATION  
BECOMES FREE,  
JUDGMENT  
BECOMES  
PRICELESS."**

Carrie McCormick. Top 0.001% of agents in Chicago, out of 43,000. Carrie McCormick Group, At Properties, Christie's International.

# AI CAN ALREADY PULL THE COMPS. IT CAN'T TELL YOU WHY ONE SOLD **LOW**.

Carrie says AI can hand a buyer five recent closings in a neighborhood in seconds. What it misses is the telephone pole behind one of those lots, or the mold in another one's basement, the actual reason that home sold at a discount. The data is public. The story behind it isn't.

## **1 Stop letting AI write your listing descriptions.**

Carrie says clients can already spot the tell: the same phrasing, the same hyphens, every time.

## **2 Post the story the data can't see.**

The mold, the pole, the reason a comp sold low. That's the value no AI search replicates.

## **3 Sell the lifestyle before the square footage.**

Luxury buyers are already asking AI for walkability and school quality before they ask for a listing. Answer that in your content first.

## THE TAKEAWAY

**AI WILL FIND THE  
HOUSE. YOU STILL  
MAKE THE CASE  
FOR IT.**

From this week's Keeping It Real, with Carrie McCormick.
